DETAILED ACTION

1. Claims 1-10 are allowed.
2. The abstract of the disclosure is objected to because of undue length, as it is approximately 253 words long. Correction is required. See MPEP § 608.01(b).

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 11 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 11 is indefinite because in line 5, it recites "the method", however, this claim is directed to "A vehicle". Claim 12 is indefinite because it depends from indefinite claim 11.
5. Claims 11 and 12 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 1724

6. The references listed on both the PTO-1449 and the PTO-892 show art of interest only, over which the claims define allowable subject matter.

7. Applicant's response to this Office action must also include the following editorial changes: on Fig. 3, provide a description of numbers "14_a" and "14_b"; para. [0010], line 1, "is" should be deleted; para. [0015], line 1, "is" should be deleted; para. [0021], line 2, "figure" should be "Figure"; para. [0023], line 1, "figures" should be "Figures", and "1 there" should be "there"; para. [0030], line 3, "15" should be "25"; para. [0033], line 4, "15" should be "25"; para. [0036], line 1, "15" should be "25"; para. [0039], lines 1 and 3, "15" should be "25"; para. [0041], line 1, "my" should be "may"; and a new page 9 should be provided, as para. [0041] is incomplete, because current page 9 is labeled "Example 1-Manufacture of Emulsion Composition Containing Retinol", which has nothing to do with the instant application.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert H. Spitzer whose telephone number is (571) 272-1167. The examiner can normally be reached on Monday-Thursday from (5:30AM-4:00PM).
